

RANGE 13

Combat Pistol Qualification Course (CPQC)

- Fully automated pistol range with 8 lanes
- Each lane has 6 dual stationary Infantry target pits that can be run independently with one moving Infantry target
- Tower has an integrated loudspeaker system, computer-driven target scenarios, and scores can be printed for each lane
- Can also be programmed to run other pre-approved scenarios from 10-35m
- Target discrimination can be integrated with the targets to present shoot – don't shoot scenarios
- Allows Soldiers to walk forward down the lanes while engaging targets to increase their combat skill levels
