

RANGE 14

Automated Record Fire/ Known Distance

- Fully automated record fire (ARF) range with 16 lanes containing foxhole positions and berms for supported, unsupported and kneeling firing positions
- Lanes are split into a north and south range to run 8 lanes independent from each other from 2 separate towers
- Event specific pop-up target scenarios are computer-driven and scored from the tower, providing immediate performance feedback and the ability to print score sheets
- Individual Weapons Qualification for day firing, night firing. M249 SAW must be fired on Range 15
- Range 14 Known Distance (KD) has 15 Known Distance target lifting mechanisms ranging from 200m to 1,000m.
- Target configuration is standard A, B and C, 6' x 6' target frames placed on the KD target lifting mechanisms.
